

ProBit CRM Saw a 265% Rise in Website Traffic Post Deployment of the New Website

ProBit CRM is an online CRM which can be customized based on companies need. With customers in over 150 countries, ProBit CRM is being used by thousands of businesses of all sizes. ProBit CRM employed PanGrow for the development and design of their website. The primary aim was to create a user-friendly website design with easy page navigation.

The new website design was widely appreciated by most of the prospective clients. The common feedback from these businesses was that the new website was more interactive and gave them the required information with ease. PanGrow provided ProBit CRM with end-to-end solution from website designing to website development. The new website design led to an increase in website traffic by **265%** which in turn helped ProBit CRM achieve higher engagement volumes.

How PanGrow helped:

- Website Design
- App Development
- Website Optimization
- SEO Audit
- CRM

What ProBit CRM had to say about this:

"PanGrow's website design and development team played an important role in improving our websites look and feel . Their thorough understanding of our vision and needs was helpful in creating a website which could cater to our clients needs. The new & improved website meant we had a significant rise in traffic all thanks to PanGrow."
