

New website helped Reborn Clinic's patient walk-ins by 210%

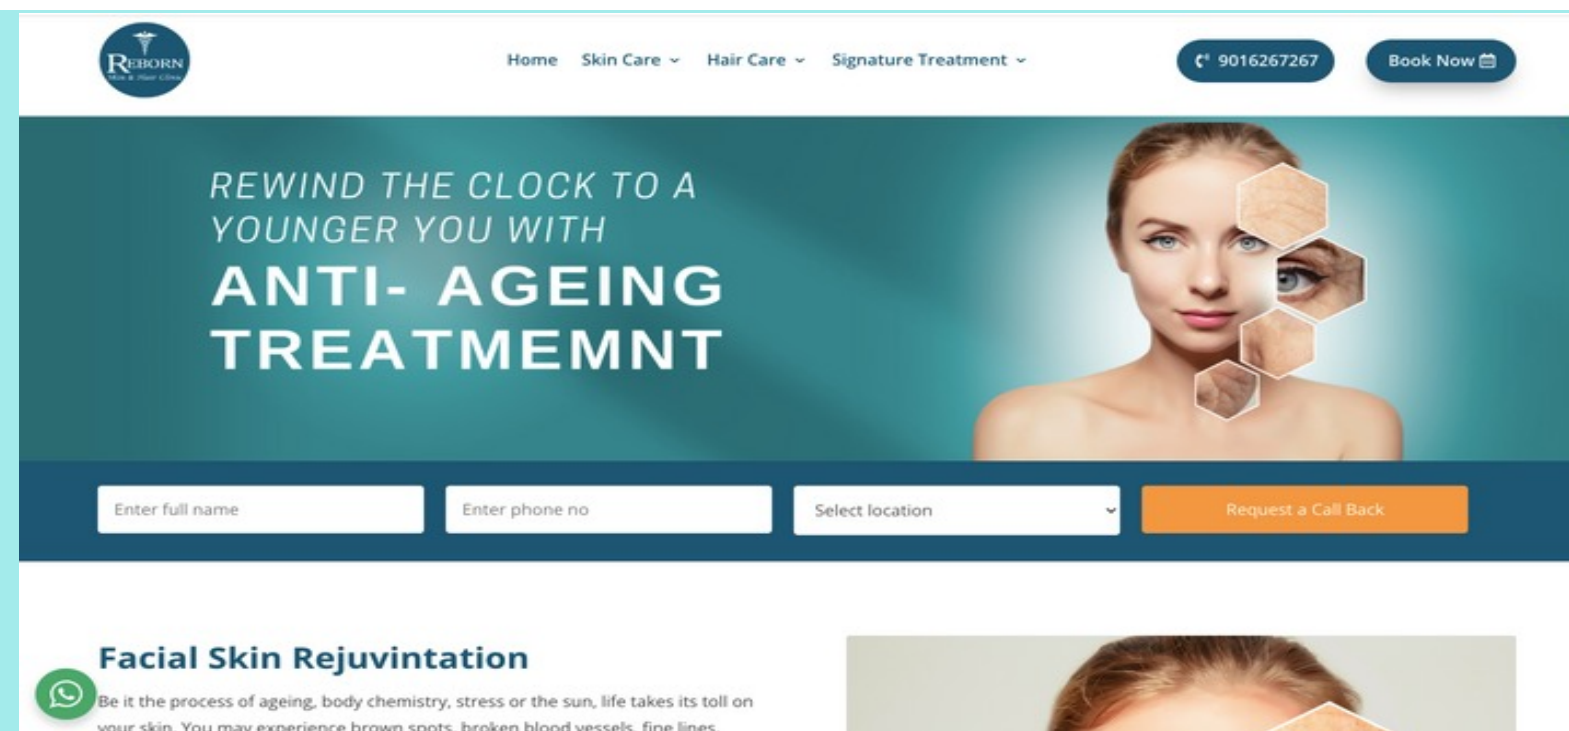

Reborn Skin & Hair Clinic is one of the most reputed cosmetic treatment providers based out of Pune, Maharashtra, with branches in Jaipur, Rajasthan. They operate with a team of highly trained and experienced dermatologists. Reborn has a history of delivering successful treatments and procedures, and its clientele vouches for the service quality provided to them.

Reborn Clinic engaged PanGrow's website development services intending to create an online presence that would enable its brand to reach a larger customer base and showcase its expertise in the field of hair and skin treatment. PanGrow delivered two separate websites exclusive to their two locations within 2 months. These websites helped increase patient walk-ins by **210%** and enabled the business to gather patient queries through online channels.

How PanGrow helped:

- SEO Friendly Website
- Industry Specific Content Strategy
- On-page Optimization
- Off-page Optimization
- Authority Building
- Effective Landing Page Design

What Reborn Clinic had to say about this:

"PanGrow helped us to take our business online with two effectively designed and optimized websites. We reaped the benefits of their expertise in the areas of Web Design that enabled us to scale our business"

The Results
